

AMENDMENTS TO THE DRAWINGS WITHOUT MARKINGS

IN THE DRAWING:

The Figure has been amended to add labels to the blocks. A new drawing labeled "REPLACEMENT SHEET" is enclosed.

REMARKS

This Amendment is submitted preliminary to the issuance of an Office Action in the present application.

Applicant has canceled original claims 1-10 in favor of new claims 11-20 which are intended to present claims in proper form and language and to better encompass the full scope and breadth of the invention, notwithstanding applicant's belief that the claims would have been allowable as originally filed. Applicant asserts that these amendments are cosmetic in nature and that no claims have been narrowed to trigger prosecution history estoppel.

In addition, applicant has amended the specification to present it in proper form and language. Especially, applicant has provided the specification with proper headings, and replaced the term "reproducing" with --representing-- to better reflect the gist of the present invention. Also, the specification has been revised as to obvious mistranslations.

Moreover, applicant submits herewith an amended Figure wherein the blocks are labeled as recited in the specification.

When the Examiner takes this application up for action, s/he is requested to take the foregoing into account.

Respectfully submitted,

By:
